

Better safe than sorry

Protective Cap for Terminal Lugs - ProtectionBall

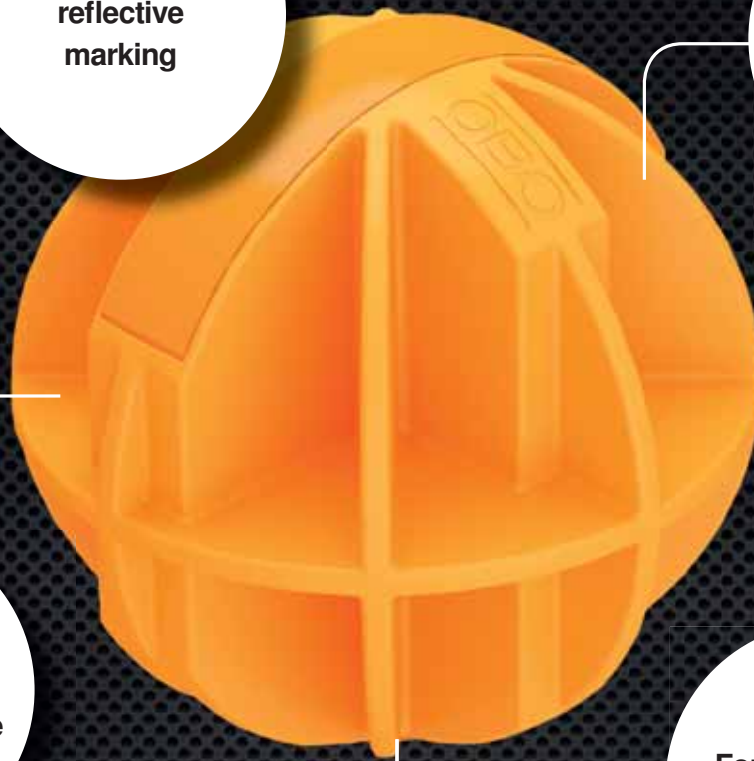

At the moment the ProtectionBall is the only cap, which meets the requirements of DIN 18014 in real life at the construction site! Due to the reflecting sheet the ProtectionBall is always visible at the construction site at dusk and in low light, e.g. in the basement area.

Striking,
reflective
marking

Required in
accordance with
DIN 18014

To prevent acci-
dents during the
construction phase

For mounting on
round and flat con-
ductor
